ECONOMIC RESILIENCE FUND - PURPOSE OF THE GRANT

The ERF will provide support in the form of cash grants for businesses, social enterprises and charities and associated supply chain businesses that have experienced / will continue to experience a material negative impact as a result of ongoing COVID-19 restrictions.

The grants will help meet operating costs (excluding staff wages) for the period 1st of July 2021 to 31st August 2021 directly impacted by the restrictions in place from the beginning of the period.

Specifically, the ERF will support businesses that are either:

- b) Dedicated event Space and attractions severely impacted by ongoing social distancing regulations

- d) A supply chain business that generates 60% or more of its sales revenue from businesses falling into categories a), b) and/or c)

AND (in addition this applies to all the above):

Have experienced a severe impact through reduced turnover of 60% or more in July and August 2021 as compared to July and August 2019 caused directly by on-going COVID-19 restrictions.

The grant will be open to applications from the week commencing the 26th July and will remain open for a period of 2 weeks .

The Fund is administered in two parts; support for businesses with a turnover greater than £85,000 will be provided directly by the Welsh Government; support for businesses with a turnover of less than £85,000 is administered by Local Authorities. Turnover levels should be for a normal trading year or an estimate if the business started post March 2020.

This Guidance relates to the support for businesses with a turnover of less than £85,000 administered by Local Authorities.

ECONOMIC RESILIENCE FUND - HOW MUCH CAN YOU APPLY FOR?

A grant is available to assist businesses based on the number of Full Time Equivalent (FTE) staff they employ as of the 1st May 2021:

	Forced to remain closed or unable to trade by on-going restrictions between 1st July 2021 and 31st August 2021	Event Space and attractions severely impacted by ongoing social distancing regulations	Other businesses with >60% impact on Turnover as a direct result of ongoing restrictions since 1st of May and were unable to open indoors before the 17th May 2021	A supply chain business that generates 60% or more of its sales revenue from businesses falling into categories a), b) and/or c)	Sole Traders without a property (LA delivery only < 85k TO) Impacted by >60%
1-3 FTE*	£5,000	£3,500	£2,500	£2,500	£1,000
4-9 FTE	£10,000	£7,000	£5,000	£5,000	

Full-time equivalent job (FTE) – This is the number of full time jobs within your organisation. A full-time job is one of 30 hours or more per week; a part-time job is one of at least 15 hours per week; two part-time jobs count as one full-time equivalent job. We do not accept zero hour contracts as eligible permanent jobs.

***The FTE figure can include the owners which may be taking drawings etc., however any employees must be paid through PAYE.**

To calculate the total FTE jobs, divide the number of part-time employees by 2 and add to the number of full-time employees. If the job is less than 15 hours per week you should combine multiple roles to make 30 as a single FTE. Seasonal posts should be treated as year round staff as long as they are employed annually.

Example:

4 part-time employees = 2 added to 1 full-time employee equals FTE employees of 3.

You are **not eligible** for this grant if:

- The business generates less than 50% of your income if you are a sole trader or partnership. The business must be your main source of income.
