Hearing Session 7
MINERALS AND WASTE
2.00 pm, Wednesday 14 September 2016
Matters & Issues Agenda

- 1 Introduction**
- 2 Procedural Matters**
- 3 Does the Plan ensure that the County will contribute appropriately to meeting regional demand for minerals over the Plan period?**
- 4 Will the Plan deliver a 7 year land bank of sand and gravel and 10 year land bank of crushed rock aggregates over the Plan period?**
- 5 Is the Plan sufficiently supportive of proposals for mineral extraction and protective of the mineral safeguarding areas?**
- 6 Should the spatial identification of the 'Preferred Areas' (policy MWYN2 following NF93) be shown on the Proposals Map rather than the Constraints Map (see minor change to that policy)?**
- 7 Does the approach of identifying Preferred Areas provide an effective means of addressing the identified shortfall in the provision of aggregates in the Plan area?**
- 8 Is policy MWYN6 unnecessarily prescriptive in relation to buffer zones, in particular notional buffer zones?**
- 9 Is the omission of a mineral safeguarding area to cover the Caernarfon coalfield justified?**
- 10 Is the Plan's Waste Strategy consistent with national policy, having particular regard to Planning Policy Wales and the revisions to Technical Advice Note 21: Waste (2014)?**
- 11 Does the Plan's evidence base provide an up to date and sufficiently detailed account of current and anticipated waste disposal requirement to demonstrate the adequacy and deliverability of the Plan's Waste Strategy?**

- 12 Is policy GWA3 an appropriate response to the storage and treatment of radioactive waste?**
- 13 Does the Plan provide clear and appropriate mechanisms for the implementation and monitoring of the Minerals and Waste Strategies?**
- 14 Any other Matters**
