

ADVANTAGES AND DISADVANTAGES OF THE PROPOSED ROUTE

ADVANTAGES

This route is the most direct route with shorter journey times for pedestrians and cyclists.

This route is the most affordable.

Low impact on biodiversity and environment.

The path is easy to follow.

DISADVANTAGES

Some designs indicate that a small section of the path will require the removal of a strip of hedgerow, creating a detrimental environmental impact.

A bridge over the river Seiont will need to be built.
