How your representation and the information that you give us will be used. All information submitted will be seen in full by the Joint Planning Policy Unit staff dealing with the Joint Local Development Plan (Joint LDP). Your name and comments as set out in your representation form will be published together with the Councils' response. This helps to show that the consultation was carried out properly. Please note that this form may also be made available to any Public Examination on the Joint LDP.

We would prefer that you submit your representations directly online. Alternatively, an electronic version of this form can be completed online at [www.gwynedd.gov.uk/ldp](http://www.gwynedd.gov.uk/ldp) or [www.anglesey.gov.uk/ldp](http://www.anglesey.gov.uk/ldp) Separate forms should be completed for each comment that you wish to make.

### Guidance Note.

Please set out your comments in Part 2 of this form. Use additional sheets of paper where necessary. **Separate forms should be completed for each comment** that you wish to make.

**Question 2dd and 2e** seeks your views on the soundness of the Joint Deposit Plan. The tests of soundness and additional information on how they are applied are detailed on the last page of this form.

If you want changes made to the Deposit Plan, please be as specific as you can. For example, if you want new text added, please set out the new text and explain where you would like it to go in the Deposit Plan and why. Similarly, if you want to add a new or amend a policy or a paragraph, please set out clearly the new text and explain where you think it should go in the Deposit Plan and why.

If you wish to delete a site that is allocated in the Deposit Plan or suggest amendments to it or you wish to propose a new site, please attach a 1:1250 or 1:2500 scale plan that clearly identifies the site boundaries. If you are proposing a new site (one that is not included within the Deposit Plan) the comment form must be accompanied by a detailed site assessment in accordance with the Council's Candidate Site assessment methodology and the Sustainability Appraisal framework. The Candidate Site assessment methodology and the Sustainability Appraisal framework can be found on the Council's website at: [www.gwynedd.gov.uk/ldp](http://www.gwynedd.gov.uk/ldp) or [www.anglesey.gov.uk/ldp](http://www.anglesey.gov.uk/ldp)

Further information about this matter can be obtained from the Joint Planning Policy Unit on **01286 685003** or on the Council's web site at: [www.gwynedd.gov.uk/ldp](http://www.gwynedd.gov.uk/ldp) or [www.anglesey.gov.uk/ldp](http://www.anglesey.gov.uk/ldp) in the leaflet 'Guidance about alternative sites'.

Where proposed changes to a development plan have significant sustainability effects, you will need to provide the relevant Sustainability Appraisal information. This information must be consistent with the scope and level of detail of the Sustainability Appraisal conducted by the Authority. It should also refer to the same baseline information in identifying the likely significant effects of the revised policy or new site.

You should include all your comments on the Deposit Plan and set out your full case on the official form, using accompanying documents where necessary. If you seek more than one change and consider that the Deposit Plan fails to meet more than one test of soundness **separate forms should be completed for each representation**. Similarly, if your representation is in support of the Deposit Plan or individual elements of the Deposit Plan it would be helpful if separate representations were made. Please indicate if you are submitting other material to support your comments.

You will only be able to submit further information to the Examination if the Inspector invites you to address matters that he or she may raise. Please note that the Inspector will not have access to comments you have made in response to previous consultations. If you do not consider the Deposit Plan to be sound and that it should be changed, please explain clearly why you think the changes are needed. If you think a change is needed for the Deposit Plan to meet one or more of the tests of soundness, please tell us which one(s).

**Where a group shares a common view on how it wishes the Deposit Plan to be changed, the Councils will accept a signed petition.** In submitting a representation form on behalf of a group, the representation form should include the contact details of a lead individual at Section 1 and the comments should be clearly set out on the representation form. The signed petition should state clearly how many people are being represented and how the representation has been authorised. Signing a petition does not prevent the submission of individual forms.

However, the Inspector may call on those who want to change the Plan to appear and speak to the Inspector at a 'hearing session' during the Public Examination. You should bear in mind that your written comments on this form will be given the same weight by the Inspector as those made verbally at a hearing session.

## Test of Soundness

Test	Procedural Tests
<b>P1</b>	It has not been prepared in accordance with the Delivery Agreement including the Community Involvement Scheme.
<b>P2</b>	The plan and its policies have not been subjected to Sustainability Appraisal including Strategic Environmental Assessment.
	<b>Consistency Tests</b>
<b>C1</b>	It is a land use plan which does not have regard to other relevant plans, policies and strategies relating to the area or to adjoining areas.
<b>C2</b>	It does not have regard to national policy.
<b>C3</b>	It does not have regard to the Wales Spatial Plan.
<b>C4</b>	It does not have regard to the relevant community strategy.
	<b>Coherence and Effectiveness Tests</b>
<b>CE1</b>	The plan does not set out a coherent strategy from which its policies and allocations logically flow and/or, where cross boundary issues are relevant, it is not compatible with the development plans prepared by neighbouring authorities.
<b>CE2</b>	The strategy, policies and allocations are not realistic and appropriate having considered the relevant alternatives and/or are not founded on a robust and credible evidence base.
<b>CE3</b>	There are no clear mechanisms for implementation and monitoring.
<b>CE4</b>	It is not reasonably flexible to enable it to deal with changing circumstances.

The Planning and Compulsory Purchase Act 2004 states that the purpose of the examination of a Local Development Plan (the Plan) is to consider whether it is "sound". This means that anyone who wants to comment on or object to the Deposit Plan should seek to say how it is unsound and what is needed to make it sound. Sound may be considered in this context within its ordinary meaning of "*showing good judgement*" and "*able to be trusted*". To assess the Deposit Plan we use 10 tests as set out above. The Deposit Plan will be examined by an independent Inspector appointed by the Welsh Government and it will be the Inspector's job to consider whether the Plan is sound.

Where you propose a change to the Deposit Plan you should therefore make clear which test(s) of soundness you believe the Deposit Plan fails. The tests are in 3 groups - 'Procedural' (2 tests); 'Conformity' (4 tests); and 'Coherence and Effectiveness' (4 tests). If you wish to comment on the way in which the Councils have prepared the Deposit Plan, it is likely that your comments or objections would fall under one of the procedural tests. If you wish to comment on or object to the content of the Deposit Plan, it may help to look at the 'consistency' and the 'coherence and effectiveness' tests.

**(ii) WINDFALLS**

- The proposed windfall growth for these settlements may impact upon DCWW water and sewerage assets. As the location of any windfall development is not yet known we will make an assessment and comment on proposed development sites at the time of the planning application.
- There are isolated incidents of flooding in the public sewerage system in the following settlements that may need to be resolved to allow development to proceed:

**Newborough**

- The proposed growth being promoted within the catchment area of the following WwTW would require improvements at the treatment works:
